NEGRO SOLDIER KILLS LITTLE FAYETTE GIRL

Fearful Crime Near South Elk-horn—Wretch Hurried To Frankfort Pen

Frankfort, Feb. 5—Will Lockett, returned overseas negro soldier, saved from lynching when he was spirited from Lexington to the reformatory here last night, after confessing the killing of Geneva Hardman, a school girl, probably will be tried here on a change venue. The Fayette Grand Jury is expected to indict him immediately.

STORY OF THE AWFUL CRIME

Within a quarter of an hour after she had kissed her widowed mother good-bye at their cottage, near South Elk-horn in Fayette county, and started on her way down Harrodsburg road Wednesday morning to school, Geneva Hardman, 11 years old, was dead, the victim of William Lockett, negro, 33 years old, recently discharged from the army.

Lockett is in jail in Frankfort, whether he was spirited by officers to prevent his being lynched by infuriated men of Fayette, Jessamine, and Woodford counties.

Meeting the child on the road, the negro gathered her into his arms, carried her through a gap in a fence into a corn field, where he killed her with a stone. Covering the body with cornstalks, the negro made his way across the cornfield into an open pasture and across that to another road. He was able to elude his pursuers and to cover his trail from bloodhounds until late in the afternoon when he was overtaken and placed under arrest in Dixontown, 10 miles from the scene of the murder, by Policeman W. C. White, of Versailles, and Dr. William T. Collette, of Versailles.

He at first denied to them that he was Will Lockett and that he was guilty of the crime, but on the way to Lexington he admitted his guilt and begged his captors to hurry him to jail.

At Fayette County Jail Lockett told Detective Captain Thomas Donlan and other officers the details of his crime, and it was decided by County Judge Frank A. Bullock, on receipt of this information and further advice to Chief of Police J. J. Reagan of Lexington that a mob would be certain to form unless the negro could be put out of its reach, that Lockett should be taken away at once, and he was rushed to Frankfort in an automobile.

Later a mob of more than 1,000 men formed at the Fayette County Jail, clamoring for Lockett. Deputy Jailer Foster told them he had been taken away by Jailer Ruben Cropper, Chief of Police J. J. Reagan, Assistant Chief Ernest Thompson and Deputy Sheriff Malcolm Brown.

He told them they were welcome to send a committee through the jail. Ten men were selected, the leader being a brother of the murdered child. When they reported that Lockett was not in the jail someone shouted: "Let's go to Frankfort!" A girl in the throng cried out: "Any man who doesn't go to Frankfort to get that beast is a slacker!"

With a shout the mob turned toward automobiles in which they had come from the country, and soon they were on their way to the capital.

Judge Bullock said that a special grand jury will be impanelled. The verdict will be guilty on the negro's own statements and he will be sent to Eddyville and electrocuted.

NOTED FRANKFORT

WOMAN DEAD

(By Associated Press) Frankfort, Ky., Feb. 5—Miss Elizabeth Smith, 96, daughter of Rev. B. B. Smith, the first Episcopal Bishop of Kentucky, is dead at her home here. For many years she conducted a young ladies' seminary in Frankfort.

Big Building Robbed

New York, Feb. 5—The vault of the Pittsburgh Steel Company in the Equitable Building was looted last night by burglars, it was learned today. A large sum in securities was stolen. The Equitable Building is in the heart of the financial district. It houses the New York branch of the Federal Reserve Bank.

Stole Booze From Police Station

Louisville, Feb. 5—So keen is quest for liquor here that two and one-half cases disappeared from Louisville police station. Apparently, thieves entered the property room where it was stored as evidence and made away with it.

FINAL ACT IN BAD CHECK CASES

Fines of \$100 Against Each of Three Lexingtonians Who Operated Here

The last act in the Lexington "cold check" cases was closed in Circuit Court Thursday morning, when fines of \$100 and costs each were imposed upon two of the men and one woman who came over and came so near "putting it over" on local merchants. The action taken is in line with the recent judgment of the Court of Appeals on the cases. The fines imposed were on the cases where the checks the quartet presented were under \$20 in amount; in the cases over \$20 the charges were dismissed; in line with the appellate court decision that prosecution could not lie until after 20 days and that time had not elapsed before the indictments were found in those cases. The three who were fined are Coy Hatton, alias W. F. Thompson, Hubert McCall, alias Charles Johnson, and Alice McCall, alias Sallie Johnson. Coy Hatton is now in the penitentiary, having pleaded guilty in one case and before the others, all of whom admitted their guilt, escaped further jail sentences through technicalities of the law. The fines imposed were on motion of Commonwealth's Attorney B. A. Crutcher, and upon the consent of the local merchants that the Lexington quartet had sought to victimize.

MAY HAVE TO FORCE HUNS TO GIVE 'EM UP

(By Associated Press) Paris, Feb. 5—Relations between the Allies and Germany seemed to have arrived at a crisis as a result of Baron Von Lersner, head of the German delegation here, refusal to forward to Berlin the names of the Germans whose extradition is demanded by the entente. It is pointed out here that measures intended to compel Germany to grant the extradition may be adopted but no intimation of their nature is given.

Huns Say It's Revenge

London, Feb. 5—"The surrender of these is virtually impossible, turn it how you will," said Minister of Defense Noske, in an interview with the Daily Mail's Berlin correspondent, in discussing the demands for extradition of the Germans charged by the Allies with war crimes.

When they reported that Lockett was not in the jail someone shouted: "Let's go to Frankfort!" A girl in the throng cried out: "Any man who doesn't go to Frankfort to get that beast is a slacker!"

With a shout the mob turned toward automobiles in which they had come from the country, and soon they were on their way to the capital.

Judge Bullock said that a special grand jury will be impanelled. The verdict will be guilty on the negro's own statements and he will be sent to Eddyville and electrocuted.

ANOTHER HUN NOTE

(By Associated Press) London, Feb. 5—The German cabinet has decided to send another note to the Allies calling attention to the fatal consequences which would follow extradition of the Germans demanded for trial by the Allies for war crimes, according to a Berlin dispatch.

HEARD ABOUT TOWN

Sheriff P. S. Whitlock is improving nicely after his narrow escape in an auto accident a short time ago. He is able to sit up and will soon be out again.

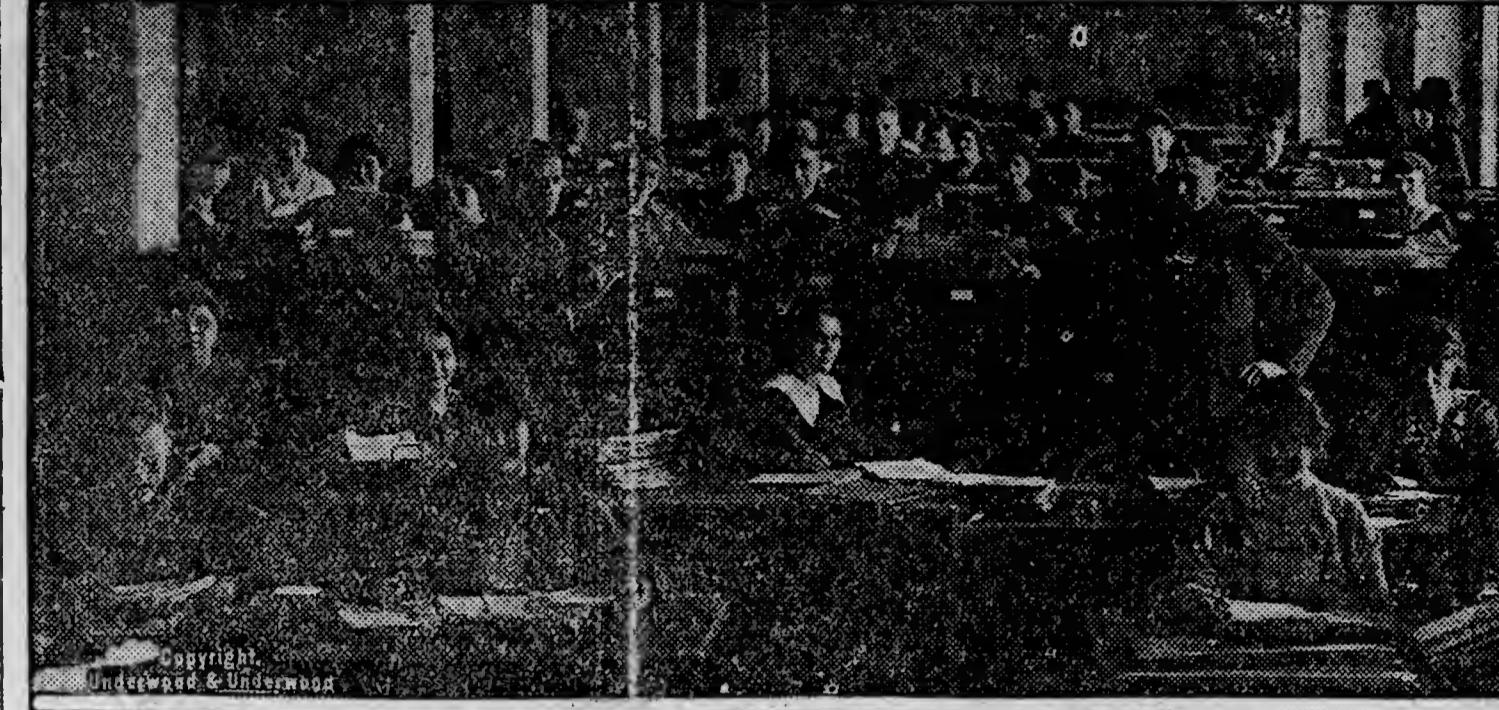

Deputy County Tax Commissioner Will Adams is out looking a little the worse for wear after having his head badly mashed in that auto accident on the Lexington pike a few days ago.

Dr. E. E. Edwards, Ben Rouf, and Wm. Walker, of Irvine, were in town Thursday morning, and stopped by to see the Dr.'s brother, Superintendent of Schools B. F. Edwards. They were on their way to Lexington where he has a patient in a hospital.

15 Killed In French Wreck

(By Associated Press) Dijon, France, Feb. 5—Fifteen persons were killed and 30 injured in a collision between an express and freight at Perrigny sur L'ognon, 21 miles east of here today.

WHERE EX-SERVICE MEN ARE DISPLACING CIVILIANS

Wholesale cuts in the number of female employees of the bureau of war risk insurance are part of the general plan of the bureau to bring all its employees under the civil service regulations. The places of probably 1,000 of the girls who have been permitted to resign will be taken by an equal number of ex-service men who have qualified by civil service examinations. This photograph shows service men and girl clerical forces working side by side.

TELLS OF GREAT WORK BEING DONE IN JAPAN

DR. TELFORD DECLINES TO MAKE "DRIVE"

Mrs. Stella Lewis Young, a former Lincoln county girl, and a graduate of Madison Institute, lectured at the Christian church Wednesday afternoon. Mrs. Young has been a missionary to Japan for 14 years. She and her husband have a parish of 30,000 people. Her talk was inspiring heart-searching and instructive. Mrs. Young said she had no fear of an immediate war between the United States and Japan, but, if Japan and China are not christianized the war we have recently passed is child's play in comparison to the one that will surely come.

The poor equipment and lack of missionaries on the field, are the great hindrance to the advance of the work. The Orient is ready to receive christianity if we are willing to give it to them.

The average missionary is paid \$750 a year. Out of that they pay \$18.50 a ton for coal, and all other living expenses are in proportion to the price of coal. The H. C. L. has hit Japan at the rate of 200 per cent increase.

The disgrace of the American church is that they ask and expect their missionaries to do their work for them, and at the same allow them to suffer because they lack the necessities of life.

All right with her love for the Master and His task, it was only when Mrs. Young was hard pressed and pinned down to answer yes or no, did she confess the sacrifices and trials of the workers on the foreign fields.

When it comes to saving Japan and the prevention of future war, Mrs. Young said the question was not, "Are we capable enough?" "Are we rich enough?" but, "Are we good enough?"

TOBACCO MAY BE HIT AT FRANKFORT

"Coal" Senators Put Over Resolution To Investigate Levy-ing of More Taxes On It

Frankfort, Feb. 5—The senate agriculture Committee today decided to postpone until next Tuesday decision on the Sims' bill which prohibits permanent bettering, when advocates of the race, tracks will be heard.

By a unanimous vote the senate passed the Simmons bill prohibiting wagers on horse races except at races and licensed race tracks. This is practically the anti-handbook bill which was beaten in the house. It provides a penalty of from 30 days to 12 months in jail for violation.

The tobacco industry may be made to pay much higher taxes in this state and the revenue lost by the elimination of liquor manufacture be made up to some degree from this source as a result of a resolution adopted by the senate yesterday. It was offered by Senator Auxier of Pikeville, and provides for an investigation of the production to determine how much, if any, is escaping taxation. The preamble to the resolution recites that whereas the state would lose \$1,500,000 annually in revenues formerly obtained from manufacturing liquors, that the tobacco industry ought to be investigated to determine if a special or excise tax could be levied on it to help make up this loss in revenue. Senators from the tobacco growing districts were worried over this resolution. Senator Jay Harlan, of Boyle, author of a resolution to investigate the mineral resources of the state to determine their value, charged that the resolution was a retaliatory measure aimed at the tobacco districts.

Ever hear of a hardware store
handing out rain checks? When
the Swalm Hardware Co., of

it is people who up and took no-
ce, for the suggestion was
something new, at least in these
arts.

The Swalm Co. and the weather-
man have been at odds all fall,
with rain on every job every
ne the store staged some spe-
cial sale. The goods were on
and the money had been spent
for advertising and window trim,
so the firm decided to go ahead
and hold its merchandising events
whether it rained or not. To
out those who won't go
there save to the theatre or
circus when it rains "rain checks"
were issued, and all those who
bought on rainy day sales—which
were distressingly frequent—
were given slips good for ten
cents on any dollar or every dollar's
worth bought at the store at
any time.

Now when it rains here people
wonder if they need anything at
Swalm's.

More Wathen Whisky Seized

New York, Feb. 5—Four car-
loads of whisky valued at \$600,-
000, were seized at a North River
pier by order of John J. O'Leary,
assistant federal prohibition
agent, and transported for an
armed guard to a boat in re-

for medicinal purposes, but Mr.
O'Leary held that the law had
been violated, as the shippers, R.

Louisville, Ky., had no permit to
ship it. The good were con-
signed to "order."

MANY ERRORS IN ARTICLE ON FERTILIZER

There were so many typographical errors and otherwise, in the article on Fertilizers, written for the Daily Register yesterday, by a well known farmer who is an expert on the subject that the Daily Register reprints it again today. It is timely and well worth reading by everyone who wants to maintain and improve the quality of his land:

High priced land and it is all high priced these days, demands 100 per cent upkeep and the maximum dividend profit. Tired, worn and run down land has come to be a liability rather than an asset. We can not longer afford to keep this kind of land.

That tired or worn out land can be rebuilt is not a theory. It is a fact proven by thousands of cases in every state in the Union. There is but one way in which soil can be rebuilt and that way is through fertilization. Fertilization means returning to the soil what has been taken from it by constant cropping, wrong rotation and abuse.

Manure provides the best remedy. Its benefits are well known to every tiller of the soil. Where it fails is in the scarcity of it. The next best thing will be found in that kind of mineral fertilizer most compatible with each particular territory, which, naturally is determined by ascertaining what the underlying base consists of.

In Central Kentucky, for instance, the underlying foundation is limestone. Lime, therefore, is necessary for the maximum growth of all plants that reach a maturity in the virgin soil of this territory. No plant reaches an ideal development here unless the lime and proper amount of lime is forthcoming from the soil.

In this territory virgin soil will produce almost the maximum yield of tobacco and corn. A second and third crop, and so on, will yield less and less until the entire earth of the soil is entirely exhausted, leaving a dead barren land. We undertake to avoid the destruction by rotation of crops and the planting of legumes, such as clovers, alfalfa, and the like.

A liberal application of ground limestone will check this destruction quickest. The drawback here, however, lies in the enormous expense. Few landholders are willing to bear the burden. Follows, then, the usual endeavor to rebuild with clovers attended all too frequently by disastrous loss in the way of "no stand" or a poor "stand," the loss of seed and labor, and the loss of the use of the land for one or two years.

This uncertainty can be avoided in a practical, reasonably, certain and commercially profitable way. It is in the use of manufactured fertilizers containing a high percentage of burned lime. This kind of fertilizer provides sufficient stimulation to start the growth of the plant and its full development is assured by the lime. It can be reclaimed and returned to maximum fertility in this way; the use of burned lime fertilizer in conjunction with leguminous crops. So much for practically desolated land.

The use of high percentage lime fertilizer on sour or acid soil (we call it "tired land") re-
solves itself into a business proposition. Virgin soil here will produce an almost maximum yield of corn or tobacco for 2 years. Then it begins to degenerate. This degeneration or loss of yield is being, and has been for years, profitably checked by proper use of soil building fertilizers.

The third crop of corn or tobacco will be made equal to the first if the proper amount of limed fertilizer is applied. A second crop of either corn or tobacco make the soil sour. Lime restores it to normal sweetness. For this reason the use of high percentage limed fertilizer places the soil in just as receptive condition for the third or fourth crop as it was in its virgin state.

The third crop of corn or tobacco without limed fertilizer or manure, will fall off one third. With limed fertilizer it will equal the first crop. This kind of fertilizer can be applied in any part of Central Kentucky at a cost of \$4 to \$7 per acre. Whether the restoration of that one third capacity yield will justify the investment depends, of course, on the market value of the crop.

Another point worthy of serious consideration is the fact that limed fertilizer is a permanent soil builder in Central Kentucky, because it combines with all free acids in the soil, thus acting as a soil corrector. Limed fertilizer in any quantities necessarily adds fertility to this territory in proportion to the amount applied. For this reason every crop, including blue grass and fruit trees, is strengthened by it.

With present high prices of land and food products the farmer in Central Kentucky who does not lime his cultivated land is neglecting a golden opportunity to increase his income.

Steer Feeding Shows Results

In a steer-feeding experiment conducted last year on the Government farm at Beltsville, Md., four lots of 2-year-old steers were fed. The purpose was to compare cottonseed meal and soaked velvet beans when used with and without the addition of shelled corn.

The addition of corn to a ration composed of corn silage, cottonseed meal, and wheat straw did not pay. The addition of corn to the ration of velvet beans and corn silage was profitable. The lot received corn silage and soaked velvet beans with a small quantity of cottonseed meal as an appetizer produced the most economical gains and showed the greatest profit, even though the daily gains and the selling price of the cattle were lower than those of any of the other lots.

LALLEY LIGHT and POWER

Lalley-Light is a complete unit—engine and
generator, oil tank, storage battery, It
supplies ample electricity for lights, water
pump, washing machine, separator, cream
separator, fanning mill, iron, etc.

Lalley Light and Power Prevents Fire on the Farm

Lalley-Light removes one of the greatest bugbears
of farm life—the danger of fire from oil or gas.

Every time you light an oil lamp in your house you
know that the peril of fire lies there.

Every time your hired man carries a lantern into the
barn you know there is the risk of its being over-
turned by man or beast.

Lalley-Light does away with open flame, with
matches, with inflammable fuel.

It removes entirely the possibility of danger through
fire or explosion.

Its safety alone is a reason why you should have it.
But we can show you hundreds of other reasons
why you cannot afford to be without this up-to-date
labor-saving, money-earning device. You are losing
money every day by not having it in your home.

WORKERS ARE PAYING INCOME TAXES NOW

(By Associated Press)
New York, Feb. 5.—Plumbers who pay income taxes are no longer the "aristocrats of labor," according to William H. Edwards, United States Internal Revenue Collector for the Second and Third Districts of New York, in whose districts this year more than \$1,000,000 will be gathered up for Uncle Sam.

High wages and profitable overtime says Mr. Edwards, have raised to the income tax paying list such workers as longshoremen, garment makers, paper hangers, railroad brakemen, chauffeurs, sailors, truck-drivers and piano movers. "And don't forget the chorus girls, the movie stars, and the hotel waiters," declared the collector, adding that some of the latter are making more than \$5,000 a year in tips alone.

Street car conductors and men in Brooklyn, for instance, he said, have made as much as \$60 a week and if their yearly income exceeds \$1,000 for a single man or \$2,000 for the head of a family, they will be required to contribute their share toward the cost of running the government. Mr. Edwards cited a few instances without, of course, mentioning any names, of bootblacks, milkwagon drivers and bellboys who in 1919 earned in excess of their exemption and who will be required to file returns.

Payments of the income tax began on January 1 and will continue until midnight of March 15 at which time all returns must be in to escape the possibility of a maximum of \$1,000 fine for delinquency. While Collector Edwards was opening his mail the other day out fell a check for \$2,883, \$15,393, representing the payment of a corporation tax with penalty and interest. The next letter he opened was from Montclair, N. J., which is also in his district. It had been registered to pay an income tax of \$1,37.

A recent caller at the Collector's office was a woman whose net income was 65 cents. Her tax amounted to four cents. She wanted to know if she would be permitted to make the payments "quarterly". When told she could she smiled and said she guessed she would pay it all at once handed over four shiny pennies and took her receipt. "Another patriotic citizen—foreign born—filled a careful return showing that he had no income which was subject to taxation. At the bottom of his return was the following notation: "No tax due but would like to pay some tax and enclose check for \$100".

Collector Edwards said that, under the law, he was not permitted to accept the check but he forwarded it to Commissioner Roper in Washington to dispose of as he saw fit. This year the income tax rate is less than last, Mr. Edwards said, the minimum rate being 4 percent on the first \$4,000 of net income above the exemption and 8 percent on the remaining net income of 6 and 12 percent as in 1918.

DIRECT DEALING PAYS BEST

When cream is ready to sell, the hard work has been done and you should not permit any outsiders to make an extra profit off your efforts.

You can ship your cream DIRECT to the Tri-State and save from 3 to 5 cents per lb. of butter-fat. It is just as easy to deliver the cream to a railroad station as to a buying station. The Tri-State pays the freight and guarantees your cream against loss in transit.

Mrs. Thos. Danlton, Peebles, O. writes us on Nov. 25, 1919— "I have shipped cream to the Tri-State Butter Co. for three years and have been satisfied. I have sold cream to cream stations in order to return the empty can with me, as I live 9 miles from the railroad and always lost from \$1.50 to \$2.00 on every can of cream sold to agents.

OVER \$2,000,000

Of Real Estate Sold By Swinebread, the Real Estate Man, of Lancaster, In 1919.

OVER 10,000 ACRES
At An Average Price of More Than \$200 Per Acre

Swinebread is now listing farms, preparing his catalogues and fixing his dates for 1920. His territory covers about 15 counties in Central Kentucky.

If you want to buy real estate now is the time to get in touch with his Real Estate Headquarters.

Swinebread also has offices at Danville, Ky., in charge of W. E. Moss, who has been with him over two years.

Swinebread is one real estate man who believes in advertising, having spent over \$10,000.00 in newspaper advertising last year and he is thus enabled to give service, and service is what the public is looking for.

The real estate business is a profession, and the same ethics of the profession must prevail in order to succeed as in any other profession or business, and success is not to be measured in dollars and cents alone, but in the clientele the real estate broker holds and the reputation he makes for fair dealing and a judge of values.

Years of experience and a close study of past and current financial conditions are necessary for him to become an expert judge of present values and future probabilities.

The real estate farm broker should have an actual and practical experience in farming to be able to judge of the adaptability of certain soils to certain crops. In other words, he ought to know just what he can do with any farm before he can advise with a prospective purchaser with reference thereto. Swinebread has this experience and will not offer for sale a farm or other property unless in his judgment the price asked will justify a purchase.

Select the man with whom you desire to transact real estate business with the same care you select your physician, your lawyer or your banker, whether you want to sell or want to buy. Your savings of a life time, or your future financial condition may be at stake. If you cannot trust your real estate broker don't do business with him. When you select your real estate broker list your property with him exclusively (talk this proposition

over with Swinebread) and assist him when you can. He is then justified in spending time and money in advertising and pushing the sale of your property. Remember Swinebread "Always Sells", so if you want to buy or want to sell real estate give Swinebread or Moss an opportunity to talk it over with you. Just a little with them may make or save you money without cost to you.

Swinebread deals in real estate not only as a broker but as a purchaser. If you want to sell be sure to see him. If you want to buy he has farms and other real estate of his own for sale.

**SERVICE
IN
QUALITY**

You need somebody to take care of your clothes—requirements; we're making it the one object of our existence as a business to do that for the men of this community.

We're here to see that you get what you ought to have, at a price as low as we can live on. We know that there have been times when men have come to us for things that we couldn't supply.

It's disappointing to any merchant to have a customer come to him for goods, and to be obliged to see him go out without buying because the merchant didn't have what was wanted. We can always have clothes here to sell; but that isn't the point.

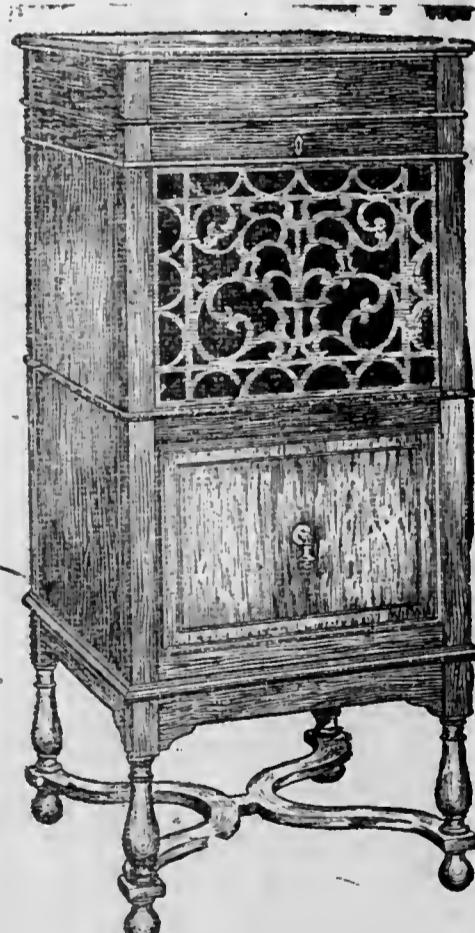

We don't want simply to make a sale, and get the money. We're interested in what you get for the money; the quality of the clothes, being the most important thing to you, is the most important thing to us. And the right kind of quality in clothes has been scarce. We'd rather not sell you anything than sell you the wrong thing. You can buy the wrong thing in many places; but not here.

There's service in quality like Hart Schaffner & Marx, and that's the service in clothes which we mean to give.

He plays each machine for the customer, and then he concludes with the Edison to prove its high tone qualities above all other machines.

The Grafonola talking machine is fast becoming the popular machine for the American people. Only recently a dealer of Lexington, Ky. offered to purchase \$200,000 worth of these instruments if he could secure the exclusive agency in that city. The offer was turned down, as there are ten or more dealers there whose sales on the Grafonola run up into the thousands of dollars each year.

INCOME TAX MEN HERE THIS WEEK

Deputy Revenue Collectors J. O. Gaines and Scobee are in Richmond at the federal building, to assist any local income tax papers in making out their reports, if such assistance is desired. The two revenue men will be here only the remainder of the week.

A word of warning to income-tax payers is contained in a statement given out by Internal-Revenue Collector Elwood Hamilton, who points out that returns must show all items of taxable income for 1919.

"Guesswork, estimates, an other hit-or-miss tactics are barred when a person is making out his income-tax return. Accuracy and completeness must be insisted upon. And remember, the returns is a sworn statement; as such it must be thorough and accurate."

Salaries persons and wage-earners must not confine their returns to figure showing a year's pay at so much a day or so much a week. The actual amount drawn should be ascertain and reported. Overtime, bonuses, shares in the profits of a business, value of quarters and board furnished by the employer, and a number of other items of similar nature, which are compensations for services, are taxable as part of the year's earnings and must be included.

Income Not Always Cash

It must be borne in mind that compensation may be paid in other forms than in cash. A bonus paid in Liberty Bonds is taxable at the market value of the bonds. A note received in payment for services is taxable income at its face value, and the interest upon it is also taxable.

Premiums paid by an employer for life or other insurance in favor of employees is additional compensation to the employees.

The income-tax does not apply to amounts received under accident and health insurance, or under workmen's compensation laws; and damages recovered by suit or settlement for injuries or sickness is also exempt.

Tips received by waiters, porters and others are taxable income or such donations are in recognition of services and are not gifts.

A pension paid by an employer or by the U. S. Government is taxable in-

come. A widow who received payments in recognition of the services of her late husband may construe such payments as gifts.

Aside from what a person may earn by his services, there are many other sources of income. He must include in his annual reckoning the gains he made in business and other ventures; also the income that his money and property earned.
